20 December 1957

Memorandum for: Chief, FBID

Subject: State Department Interest in Foreign  
Broadcasts Concerning U.S. Senators  
Congressmen.

1. Mr. Mitchell Stanley, Office of Congressional Relations, State Department has approached me on the matter of the State Department's forwarding to the Senators and Congressmen concerned FBIS material from Iron Curtain stations which includes any mention of U. S. Senators and Congressmen.

2. I would appreciate your early comments on the question of making this material available to Congressmen on a routine basis. If you feel that such a practice is advisable, taking into consideration NSCID #6 entitled Foreign Wireless and Radio Monitoring, dated 12 December 1947, I would also appreciate your views on whether this should be accomplished through State Department channels or through some other arrangement.

3. Inasmuch as Mr. Stanley has requested an early answer, I would appreciate your comments as soon as possible.
